[DOI: 10.1063/1.1478804]

The article in Ref. 1 has been brought to the present author's attention after the publication of Ref. 2. It is noteworthy that some basic features of the general method presented in Ref. 2 following and generalizing Ref. 3 and Ref. 4, have already been noted in Ref. 1. The author wishes to thank Daniel A. Dubin expressly for pointing out Ref. 1 to him.
